

Residents: Have you created your ABA portal account?

It's important that you create your ABA portal account early in your training so you can track Board certification requirements, register for exams, view your exam scores and maintain your MOCA requirements.

HELPFUL TIPS:

Use your personal email address (Gmail, Yahoo, etc.) so we can keep in touch with you after you complete your training

Add our domain, "theaba.org," to your email client's safe senders list to minimize the risk of missing any of our emails

Verify and make any necessary updates to your email address, mailing address and other contact information each time you log into your portal account

Check out instructions for "Creating a Portal Account," which are available in the Quick Links section in the footer of our website
