

The following CME activities have been approved for credit for Part 2: Lifelong Learning and Self-Assessment of the Maintenance of Certification in Anesthesiology Program (MOCA).

## ABA-APPROVED SELF-ASSESSMENT CME:

(No longer required for MOCA as of Jan. 1, 2016; No longer required for MOCA-SUBS as of Jan. 1, 2017)

- ASA [ACE](#) and/or [SEE](#) programs (60 credits)
- [ASA/ASRA Self-Assessment Module – Pain Medicine](#) (30 credits)
- [ASA/SOCCA Self-Assessment Module – Critical Care](#) (30 credits)
- [ASRA Ultrasound-Guided Regional Anesthesia Cadaver Course](#) (14 credits)
- [Audio-Digest Foundation Cardiovascular Disease Self-Assessment Activity](#) (8 credits)
- [Audio-Digest Foundation Pain Management Self-Assessment Activity](#) (8 credits)
- [Dannemiller Anesthesiology Review Course 2015](#) (50 credits)
- [Johns Hopkins Sepsis Without Walls: Ensuring All Patients Receive Optimal, Time Sensitive Care](#) (7.5 credits)
- [Mayo Clinic Applied Quality Essentials](#) (10 credits)
- [Penn State Hershey Medical Center / Pennsylvania Society of Anesthesiologists 5th Annual Fundamentals of Ultrasound-Guided Regional Anesthesia Cadaver Course](#) (13 credits)
- [Society of Critical Care Medicine Advanced Knowledge Assessment in Adult Critical Care](#) (9 credits)

## ABA-APPROVED PATIENT SAFETY CME:

The current Patient Safety CME requirement is 20 credits during the 10-year cycle. Diplomates must complete at least one of the following fundamental patient safety courses.

- [ASA Fundamentals of Patient Safety](#) (10 credits)
- [National Patient Safety Foundation \(NPSF\) Online Patient Safety Curriculum](#) (10 credits)

If both of the above courses are not completed, diplomates can select 10 CME credits from the courses below to reach the 20 credit total.

### [ASA Patient Safety Online Modules](#)

- Cardiac Arrest and Spinal Anesthesia (0.5 credits)
- Cardiac Tamponade
- Difficult Airway Algorithm (0.25 credits)
- Drug Errors in Anesthesia (0.75 credits)
- Improving Patient Outcomes When Using Neuromuscular Blockage (1 credit)
- Infection Control (Patient Safety) (0.75 credits)
- Infection Control for Anesthesia Professionals (1 credit)
- Intraoperative Awareness (0.5 credits)

- Managing Clinical Risk through Communication and Teamwork (1 credit)
- Medication Safety & Drug Errors (0.75 credits)
- MRI Advisory (1.5 credits)
- Old Anesthesia Machines and Equipment: Obsolescent or Safe? (1 credit)
- Smoking Cessation in Surgical Patients: How to Help Your Patients Quit and Why It's Important (1 credit)

#### **ASA 2012 Patient Safety Highlights**

- Hemorrhagic and Infectious Complications of Neuraxial Anesthesia (1 credit)
- Human Performance in the Operating Room (1 credit)
- Improving Safety for Interventional Radiologic Procedures in the Ambulatory Setting (1.5 credits)
- Patient Safety on the Labor and Delivery Unit (2 credits)
- Postoperative CNS Dysfunction (1.25 credits)
- Quality and Safety in Pediatric Anesthesia (2 credits)
- Quality Improvement in Perioperative Care (1.5 credits)

#### **ASA 2013 Patient Safety Highlights**

- Adult Patient With Morbid Obesity and OSA for Ambulatory Surgery: An Update (1 credit)
- ASRA Practice Advisories: Review and Update (2 credits)
- Cognitive Errors in Anesthesiology: Making Mistakes Even When You Know Better (1 credit)
- Complications in Pain Medicine Practice (1 credit)
- Ellison C. (Jeep) Pierce Lecture: Towards Patient Safety in Anesthesia – Let the Journey Continue (1 credit)
- Hospital System Failures and Hazard Management in the Operating Room (1 credit)
- Lessons Learned: Case Discussions from the Anesthesia Incident Reporting System (1.5 credits)
- Operating Room Safety: Electricity and Fires (1.5 credits)
- Patient Safety in the Cardiac Operating Room (2 credits)

#### **ASA 2014 Patient Safety Highlights**

- Beyond Smoke and Mirrors: Panel on Surgical Fire Prevention Including Laser Safety (1.50 credits)
- Controversies and Best Practices in Central Line Insertion: State of the Art in 2014 (1 credit)
- Crisis Management in Office-based Anesthesia (1.50 credits)
- Decision Making Errors in Anesthesiology (1 credit)
- Human Errors in Medicine: What They Should Mean to Patients, Providers and the Public (1 credit)
- Interventional Pain Procedures in Patients on Anticoagulants (1 credit)
- Lipid Resuscitation for Local Anesthetic and Other Toxic Overdoses (1 credit)
- Management of Neurological Events after Anesthesia (1.50 credits)
- Operating Room Fire Safety (1 credit)
- Patient Safety in the Cardiac Operating Room: What Can, Will and Might Make Patients Safer and You Happier (1 credit)
- Patient Safety Memorial Lecture: Competence and Teamwork Are Not Enough: The Value of Cognitive Aids (1 credit)
- Perioperative Patient Safety in Cardiovascular Surgery: From Data to Implementation (2 credits)

#### **Improving Patient Outcomes When Using Neuromuscular Blockade** (1 credit)

## 2015 Meetings:

### [Texas Society of Anesthesiologists 2015 Annual Meeting \(Sept. 10 - 13, 2015\)](#)

- Fetal Opioid Addiction (1 credit)
- High Horse Positions in Ethics are Dangerous? (1 credit)
- Leadership in Anesthesia (1 credit)
- Non-Obstetric Surgery during Pregnancy: Is there a real risk? (0.75 credits)
- Pediatric Parallel Session (6.75 credits)
- Practical Approach to Evaluate a Bleeding Patient (1 credit)
- Pregnancy and Airway: Is there an increased Risk? (0.75 credits)
- The HIPPA-Potamus in the Room: Legal Compliance for Physician Practices (0.75 credits)
- Who Wants to Make a Plaintiff a Millionaire? Strategies to Manage Liability Exposure (0.5 credits)
- Why Vigilance Matters: A Review of Rare Preventable Complications in Anesthesiology (1 credit)

### [Wisconsin Society of Anesthesiologists 2015 Annual Meeting \(Sept. 12 - 13, 2015\)](#)

- Breakout Session: Simulation Workshop (1.5 credits)
- Breakout Session: Ultrasound Workshop (1 credit)
- Care of the Parturient for Non-Obstetric Surgery (0.75 credits)
- Regional Anesthesia Update: Local Anesthetic Toxicity (0.75 credits)
- Risk to the Anesthesiologist: Use of Technology and Personal Devices in the OR Setting (0.75 credits)
- Risk to the Anesthesiologist: The Aging Anesthesiologist (0.75 credits)
- The Perioperative Surgical Home: What You Need to Know for Your Practice (1 credit)
- Update on Cardiac Risk: Management of the Patient on Anticoagulation (0.5 credits)
- Update on Cardiac Risk: Managing a Patient with a Cardiac Device (0.5 credits)

### [NESA 58th Annual Fall Meeting and Conference \(Sept. 17 - 20, 2015\)](#)

- Anaphylaxis and Anesthesia (0.5 credits)
- Anesthesia and neuroplasticity in the Elderly (0.5 credits)
- Big Data and Anesthesia: Possibilities and Perils (1 credit)
- Cracker Barrel Session (1.75 credits)
- Obstetric Anesthesia Update (0.5 credits)
- Obstetric Maternal Morbidity and Mortality Update (0.5 credits)
- Orthopedic Trauma: Just Another Hip Fracture? (0.5 credits)
- Perioperative Stroke-considerations for the Anesthesiologist (0.5 credits)
- Post-Lecture Panel (0.75 credits)
- The Aging Anesthesiologist (0.5 credits)
- The Perioperative Management of Patients with Coronary Stents (0.5 credits)

### [SPA 29<sup>th</sup> Annual Meeting \(Oct. 23, 2015\)](#)

- Coagulopathy: Measuring and Management (1 credit)
- Infection Prevention in Anesthesia Practice (0.5 credits)
- Pediatric Trauma – Damage Control Resuscitation (0.5 credits)
- SSI: Strategies for Control in Your Practice (0.5 credits)
- Transfusion Medicine – Lessons Learned From the Front (1 credit)
- What Infections Will You Encounter in the OR? (0.5 credits)

## ASA's 2015 Annual Meeting (Oct. 24-28, 2015)

- Patient Selection For Ambulatory Surgery: Can any Patient Be an Outpatient? (1 credit )
- Office-Based Anesthesia: Challenges and Successes (1 credit )
- Perioperative Pathways for Obstructive Sleep Apnea: Avoiding Complications after Ambulatory Surgery (1.5 credits )
- Enhanced Recovery for the Ambulatory Patients (1 credit)
- Pacemakers and ICDs in Perioperative Care (2 credits)
- Perioperative Pacemaker and Defibrillator Management: What You Need to Know (1 credit )
- Perioperative Beta Blockade for Cardiac Surgery: State of the Art 2015 (2 credits )
- Monitoring Intravascular Pressures: Getting the Right Answer and Making an Accurate Diagnosis (1 credit)
- The Structured Handoff Improves the Care of the Critically Ill Perioperative Patient (1 credit )
- Electronic Health Records Improve Patient Safety - Or Do They? (1 credit )
- Controversies and Best Practices in Central Line Insertion (1 credit )
- Perioperative Renal Protection (1 credit )
- Hazards of the Anesthesia Workstation (1 credit )
- Operating Room Fire Safety (1 credit )
- Positioning Problems You Hope to Never Encounter (1 credit )
- Algorithmic Management of Critical Events in the PACU (1 credit )
- Creating the Safe Non-Operating Room Anesthesia (NORA) Experience (2 credits )
- Top 10 Respiratory Anesthesia Practices That Drive Me Crazy (1 credit )
- Hospital System Failures and Hazard Management in the Operating Room (1 credit )
- How Can Anesthesiologists Minimize Mortality and Adverse Outcomes (2 credits )
- Perioperative Glucose Control: Creating a Shared Mental Model and Delivering Quality Patient Care (1 credit)
- Mastering Anesthesia for the Elderly Patient (1 credit )
- Can General Anesthesiologists Safely Provide Anesthesia in the Electrophysiology and Interventional Cardiology Laboratories? (1 credit )
- Frontiers in Neuroscience: Awareness During Anesthesia (1.5 credits)
- Impact of Anesthesia and Surgery on the Brain Across The Life Span (2 credits )
- Anesthetic Management of Patients Undergoing Spine Surgery (1 credit )
- Safety Innovations for the L&D Unit: Creating a Vision for Leadership in Peripartum Medicine (2 credits)
- Obstetric emergencies – how do you prepare and what do you need to know when the unthinkable happens (1.5 credits)
- SOAP/FAER Gertie Marx Plenary Lecture: Are We Speaking the Same Language? Improving Outcomes through Multidisciplinary Collaboration and Clear Communication (1 credit)
- Pain and Prescription Opioids: From Panacea to Epidemic (1 credit)
- Guidelines of the ASRA and other organizations on interventional pain procedures in patients on anticoagulants (1 credit)
- Therapeutic Epidurals: An Update on the Latest Evidence, Safety Considerations and Opportunities (1 credit)
- When Doing More Makes Sense: Advocating for Interventional Pain in Palliative Care Patients (1 credit)
- Pediatric Anesthesia Crisis Management: How to Diagnose and Treat Your Own Cognitive Errors (1 credit)
- Errors in Pediatric Anesthesia: What Can We Learn From Our Mistakes? (1 credit)

- The Pediatric Checklist Manifesto-Utilization of Pediatric Checklists to Improve Care and Safety (1 credit)
- (SPA) American College of Surgeons Optimal Resources in Children's Surgical Care: What it Means for Anesthesiologists Who Care for Children (1.5 credits)
- Pediatric Sedation Outside the Operating Room: Safe and Sound! (1 credit)
- Case Studies from the Anesthesia Incident Reporting System (2 credits )
- A Malpractice Carrier-Initiated Simulation Program: Observations from a 7-Hospital Program (1 credit)
- Anesthesia Safety - Are We Really Getting Better? (1 credit)
- Situational Awareness, Crisis Management and Patient Safety in Anesthesia Practice (1 credit)
- Tired of Not Being Taken Seriously? How Professionalism Affects Your Daily Work Life (1 credit)
- A Fatigued Physician is an Impaired Physician! There Must Be Rules To Protect Our Patients (1 credit)
- Using Emergency Manuals in the OR: What is the Evidence and How to be Most Effective (1 credit)
- Implementing Emergency Manuals - What's The Secret Sauce? (2 credits )
- The Evidence Behind Infection Prevention Recommendations: Because I Said So or Because It's Better Care? (1 credit)
- Errors in Medicine: What They Should Mean to Patients, Providers, and Policymakers (1 credit)
- Mindfulness in Anesthesia: A Safety and Satisfaction Initiative (1 credit)
- ASRA Practice Advisories: Review and Update (2 credits )
- In-Hospital Falls: Are Peripheral Nerve Blocks to Blame? (1 credit)
