

REQUIREMENTS FOR MOCA 2.0[®] ACCREDITED CONTINUING MEDICAL EDUCATION

ABOUT THE ABA MOCA 2.0[®] PROGRAM

Since 2011, we have been working to redesign our Maintenance of Certification in Anesthesiology™ (MOCA[®]) program. The redesign was inspired by diplomate feedback and technological advances that allow us to provide our diplomates with customized learning and assessment. Our focus is on addressing diplomate needs while continuing to meet our mission and MOC program standards set by the American Board of Medical Specialties[®] (ABMS[®]). The new MOCA program, known as MOCA 2.0[®], is an Internet-based, adult education platform that emphasizes ongoing assessment, reflection and learning. Our goal is to help diplomates continuously assess their knowledge, identify knowledge gaps and connect to targeted educational opportunities and resources that fulfill their individual learning needs.

We are collaborating with the Accreditation Council for Continuing Medical Education (ACCME[®]) to expand the number and diversity of accredited CME activities that meet our MOCA requirements for lifelong learning and self-assessment (Part 2), including the patient safety CME requirement. Additionally, we are streamlining the MOCA CME processes for greater ease and efficiency for accredited CME organizations and board-certified physicians.

All accredited CME providers in the ACCME system already use the ACCME's Program and Activity Reporting System (PARS) to enter data about each of their CME activities. CME providers that choose to participate will use PARS to attest to their activities' compliance with MOCA requirements. When physicians complete activities, CME providers will report learner completion through PARS to us.

EDUCATIONAL ACTIVITIES FOR MOCA 2.0[®]

The MOCA 2.0 platform is being designed to guide diplomates to educational opportunities that can close knowledge and skills gaps. To comply with MOCA 2.0 requirements, the CME activity must:

- Be directly or jointly offered by a provider accredited within the ACCME system;
- Be designated for AMA/PRA Category 1 credit™;
- Cover one or more topics important to anesthesiology or anesthesiology subspecialties; and
- Not be advertised as a board review or board preparation activity.

In addition, accredited providers will have the ability to designate activities focused on patient safety. To comply with MOCA 2.0 requirements, the accredited activity must:

- Include key themes in patient safety that cross disciplines and clinical settings. Key themes include, but are not limited to, epidemiology of error, the effect of the healthcare system on patient safety, human factors, safety enhancing technology, communication, culture of safety, patient safety reporting and methods and tools for evaluating safety events.
- Present a curriculum that addresses key themes and contains learning objectives for each key theme.
- Submit evidence of compliance with the patient safety expectations if the activity is selected for our audit.

MOCA 2.0 ACTIVITY INFORMATION

The following information must be provided to the ACCME by the accredited provider to register an activity for MOCA 2.0. It is considered public information and; therefore, may be released by us and/or ACCME.

- ACCME Provider ID
- Activity title
- Activity type
- Accredited provider name
- Accredited provider Activity ID
- PARS Activity ID
- Accredited provider contact information (including phone number and website address)
- Joint provider name (if applicable)
- Activity start and end date
- Activity website address
- Hours of instruction
- AMA PRA Category 1 credits
- An indication of which practice area the activity covers (from the following list)
 - a. Ambulatory/Outpatient
 - b. Cardiac Anesthesia
 - c. Critical Care Medicine
 - d. General Operative Anesthesia
 - e. Hospice and Palliative Medicine
 - f. Neuro Anesthesia
 - g. Obstetric Anesthesia
 - h. Pain Medicine
 - i. Pediatric Anesthesia
 - j. Regional Anesthesia/Acute Pain
 - k. Sleep Medicine
 - l. Thoracic Anesthesia
 - m. Trauma
- Activity fee (yes/no)
- Information about whether the activity is open to any learner or has limited registration (e.g., for internal staff only)
- Selection of at least one, but not more than two, topic areas from the MOCA 2.0 Content Outline to catalogue the activity in the search tool for our diplomates seeking such content. Providers will use an expandable list to make their selections. Providers who are batch uploading or using a web service to transmit multiple activities at once should pull the applicable codes from the MOCA Content Outline mapping spreadsheet.
- Optional selection of one tag from a drop down menu displayed for each topic area in the MOCA 2.0 Content Outline. If an applicable tag is not in the drop down menu, providers can submit their own tag(s) by selecting “Other” in the list of tags. Providers who are batch uploading or using a web service to transmit multiple activities at once should pull the applicable codes from the MOCA Content Outline mapping spreadsheet.
- Information about whether the activity is patient safety CME

In addition, the accredited provider must attest (1) that the activity is NOT advertised as board review or board preparation, and (2) that it will report learner completion data to us via PARS in a timely manner. The accredited provider also gives permission for ACCME to provide the following information to us: ACCME Provider ID, Activity Provider Name, PARS Activity ID, and Accredited Provider contact information (including phone number and website address).

Conflict of Interest Policy for Educational Providers

The American Board of Anesthesiology (ABA) reserves the right to audit any continuing medical education (CME) activities that satisfy the standards for the MOCA program. The ABA does not accept any CME activity that includes but is not limited to preparation for any type of ABA certification examination or assessment. In the event a CME provider directly, indirectly or by inference misrepresents to the public or creates any confusion that the CME activity relating to satisfying MOCA requirements constitutes approval for preparation

of any ABA certification examination or assessment, the CME provider must immediately cease advertising itself or its activity as “MOCA-approved.”

REPORTING CME PARTICIPATION INFORMATION

As part of MOCA 2.0, our diplomates should report continuing medical education that includes 250 AMA PRA Category 1 CME credits from activities offered by accredited providers, as well as 20 AMA PRA Category 1 credits in Patient Safety accredited activities. The accredited provider is responsible for the development and administration costs of the activity and must report diplomates’ completion of the activity to us through PARS.

Use of Participant Data

If participant data will be shared with the funder of the activity or any other commercial entities, whether individually or in aggregate, this must be disclosed to participants prior to the beginning of the activity. This transparency allows participants to decide if they wish to participate in activities that provide their data and/or data about their clinical practice to commercial entities.

Participant Completion Information

The provider must have systems, resources and processes in place to:

- collect the participant completion data described in Table 1;
- obtain permission from the participant to share the completion data with ACCME; and
- transmit the completion data to ACCME on behalf of the participant.

Participant data is governed by our Data Privacy and Security Policy available in our policy book at www.theABA.org. Identifiable patient data should not be provided to us or the ACCME by any organization or participant.

Table 1: Participant Completion Information

Field Name	Description
ACCME Provider ID	A unique numeric value assigned to each provider by ACCME
ABA ID	Every board-certified physician anesthesiologist has a unique, eight-digit ABA ID number (e.g., 3456-7890). Physicians who do not know their ABA ID can call our Communications Center at (866) 999-7501 to obtain it.
First Name	Physician’s first name
Last Name	Physician’s last name
PARS Activity Identifier	A unique numeric value automatically assigned by PARS when an activity record is created
Provider Activity ID	A unique value created by the provider to identify the activity
Activity Completion Date	Date (mm/dd/yyyy) the physician completed the activity
CME Credits	CME credits claimed by the participant for the activity

Program Fees/Participant Fees

We will not charge a fee to providers that register activities through PARS for MOCA 2.0 credit at this time; however, we may revisit our fee structure in the future.

Providers are responsible for all costs associated with developing and operating the activity. We have no policy that precludes the provider from charging a fee for participation in the activity; we will not reimburse fees charged by the provider to participants.

Data Privacy and Security Compliance

Providers are responsible for ensuring that the appropriate data privacy and security safeguards are in place and conform to all relevant regulatory and industry requirements.

Diplomate Portal on Our Website

The following information will appear in physicians' MOCA progress report in our secure physicians' portal:

- Activity title;
- AMA PRA Category 1 credit, including patient safety CME designation, if applicable; and
- Activity completion date.

ABA PROMOTION GUIDELINES: MOCA® COMPLIANCE

The following guidelines should be used when referencing the ABA, and its programs and requirements.

1. The first reference to “The American Board of Anesthesiology®,” “Maintenance of Certification in Anesthesiology™ program” or “MOCA®” should include the “™” trademark or “®” registration symbol in superscript. On the same page with the first usage of Maintenance of Certification in Anesthesiology™ program or MOCA®, the following language should appear:
“Maintenance of Certification in Anesthesiology™ program and MOCA® are registered trademarks of The American Board of Anesthesiology®.”
2. The first reference to “MOCA 2.0®” should include the “®” registration symbol in superscript. On the same page with the first usage of MOCA 2.0®, the following language should appear:
“MOCA 2.0® is a trademark of The American Board of Anesthesiology®.”
3. **When promoting patient safety activities**, this language must appear on all electronic or print promotional materials after the above language in section 1:
“This activity contributes to the patient safety CME requirement for the CME component of the American Board of Anesthesiology’s (ABA) redesigned Maintenance of Certification in Anesthesiology™ (MOCA®) program, known as MOCA 2.0®. Please consult the ABA website, www.theABA.org, for a list of all MOCA 2.0 requirements.”
4. The ABA does not use the terms “MOCA candidates” or “MOCA diplomates.” The approved terms are:
 - ABA diplomates
 - ABA diplomates participating in MOCA
