MOCA PART II: Third-Party Reported LLSA (CME) Activities that Require Your Review and Attestation

Third-Party CME providers may submit CME activities and credits to the ABA electronically for ABA diplomates. The ABA will import the activities into your account. The provider reported activities are displayed in RED in your LLSA (CME) activity listing.

These activities require your review and attestation before the ABA can consider them "complete."

Step 1: Access the ABA's website at www.theABA.org, and click on **Physician Login**.

Step 2: Enter your ABA ID or Social Security Number and password. **If you have not set up an account or have forgotten your password, click on **Account Setup** from the Quick Links on the left side of the page.

Step 3: Once you've logged in, you may access your LLSA (CME) Activity List by clicking on **Submit/Review completed LLSA activities**. If you have any Provider reported activities that require your review and attestation, you will see a number to complete in **RED** under Submit/Review completed LLSA activities.

As an Anesthesiologist, you can...

Update your medical license and USMLE information

Apply for Primary Certification

Review deadlines and exam dates

View your online documents

Submit/Review completed LL-SA activities

You have 0 to complete

Note: To complete and finalize an activity, click on the edit button  in the far right column of the activity and input responses for the following:

Step 4: Check whether the activity was a Lifelong Learning activity or a Self Assessment activity in the **Activity Type** field:

Lifelong Learning activities are designed to increase your knowledge (e.g., lectures and conferences).

Self-Assessment activities are designed to help you determine your current level of knowledge (e.g., question and answer activities).

Step 5: Select 'Yes' or 'No' in the **Attestation** field.

Step 6: Select the general competency/competencies the CME activity pertained to in the **General Competencies** field:

Medical Knowledge about established and evolving biomedical, clinical, and cognate (e.g. epidemiological and social-behavioral) sciences and the application of this knowledge to patient care.

Patient Care that is compassionate, appropriate, and effective for the treatment of health problems and the promotion of health.

Professionalism as manifested through a commitment to carrying out professional responsibilities, adherence to ethical principles, and sensitivity to a diverse patient population.

Practice-Based Learning and Improvement that involves investigation and evaluation of their own patient care, appraisal and assimilation of scientific evidence, and improvements in patient care.

Systems-Based Practice as manifested by actions that demonstrate an awareness of and responsiveness to the larger context and system of health care and the ability to effectively call on system resources to provide care that is of optimal value.

Interpersonal and Communication Skills that result in effective information exchange and teaming with patients, their families, and other health care professionals.
