MOHAMMED MINHAJ, M.D., MBA

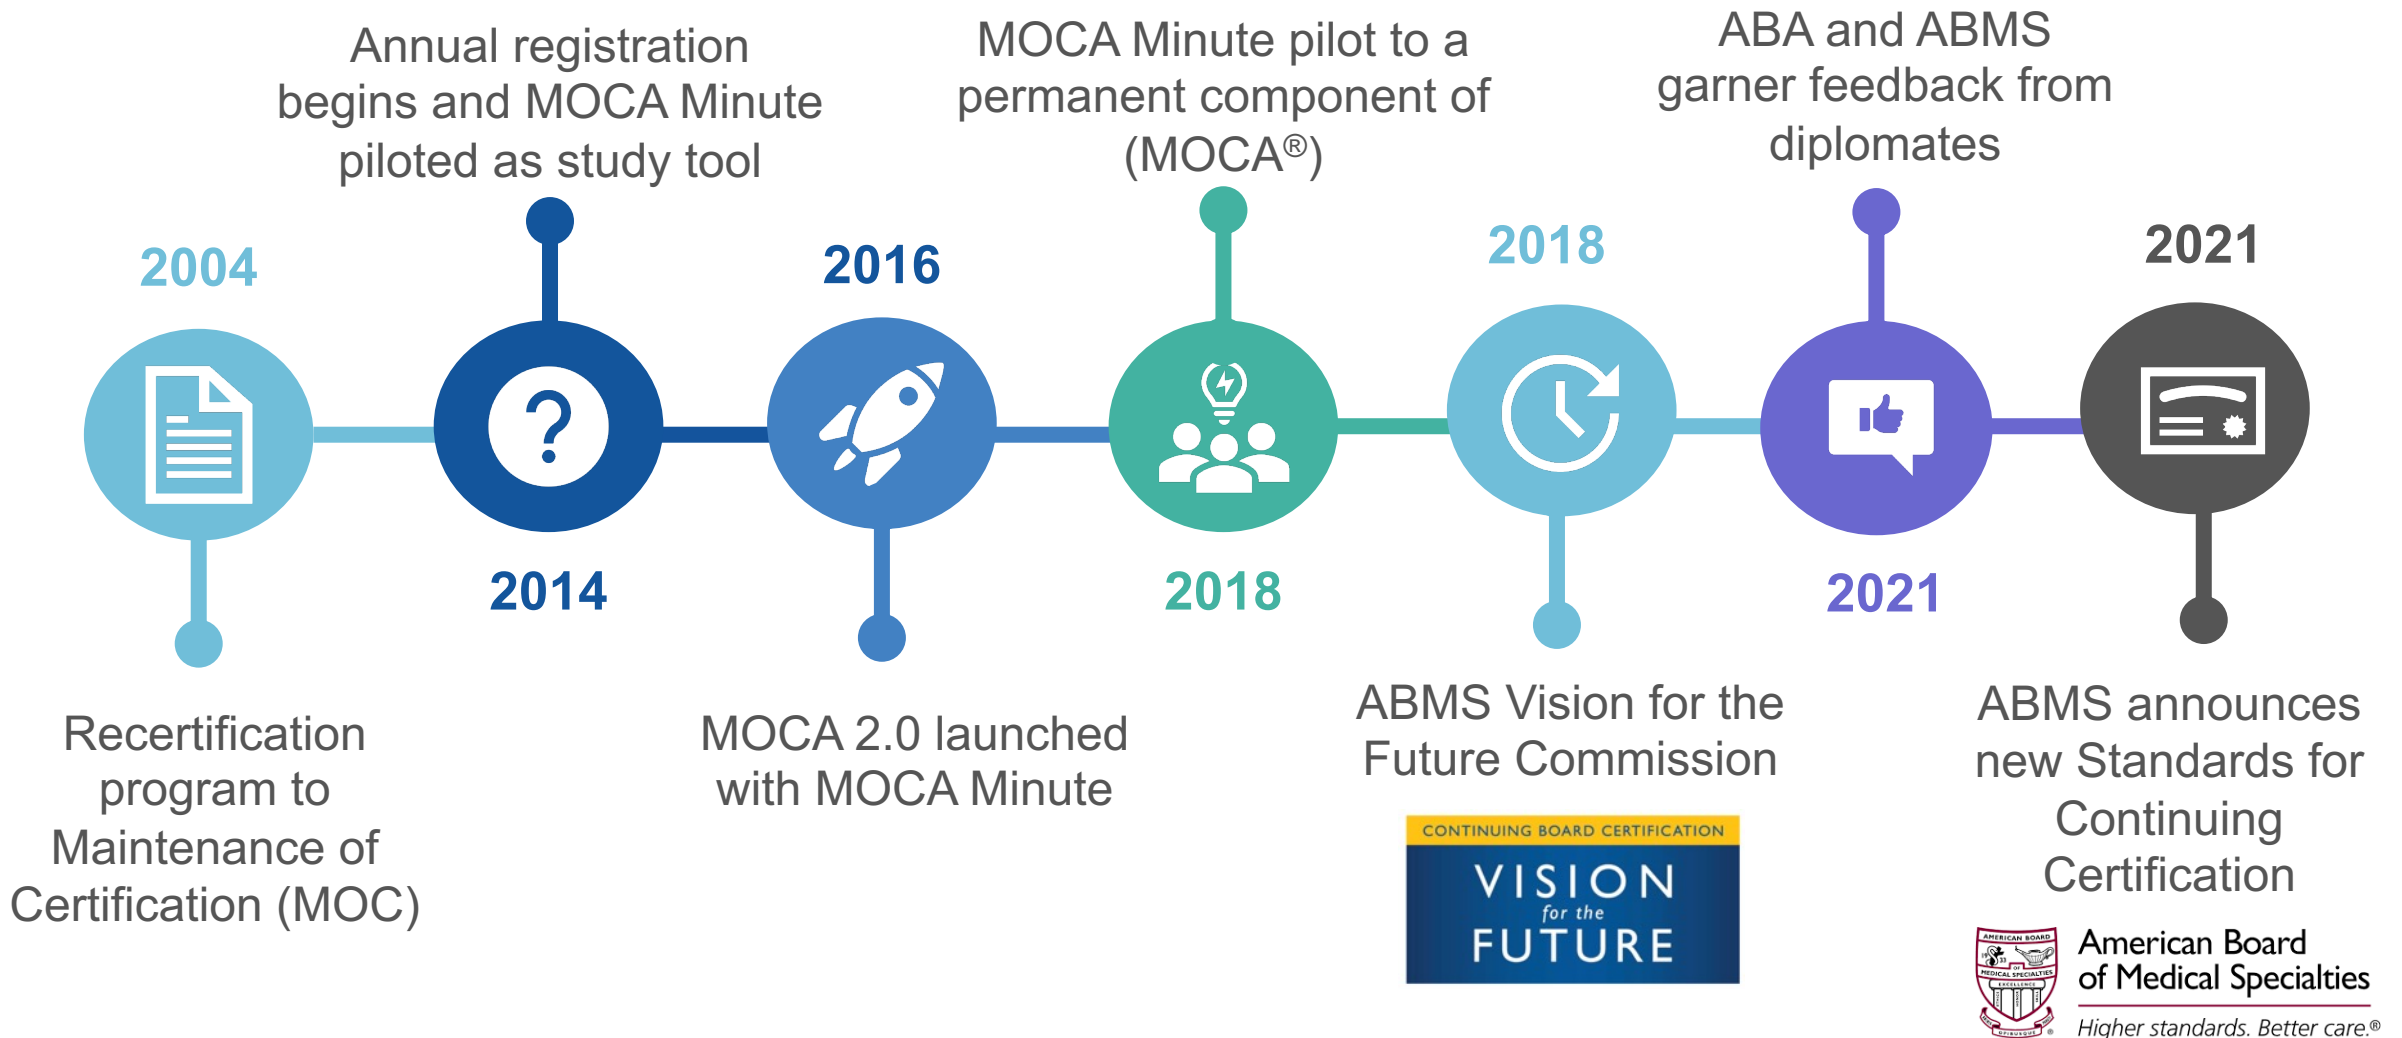

VIVEK MOITRA, M.D.

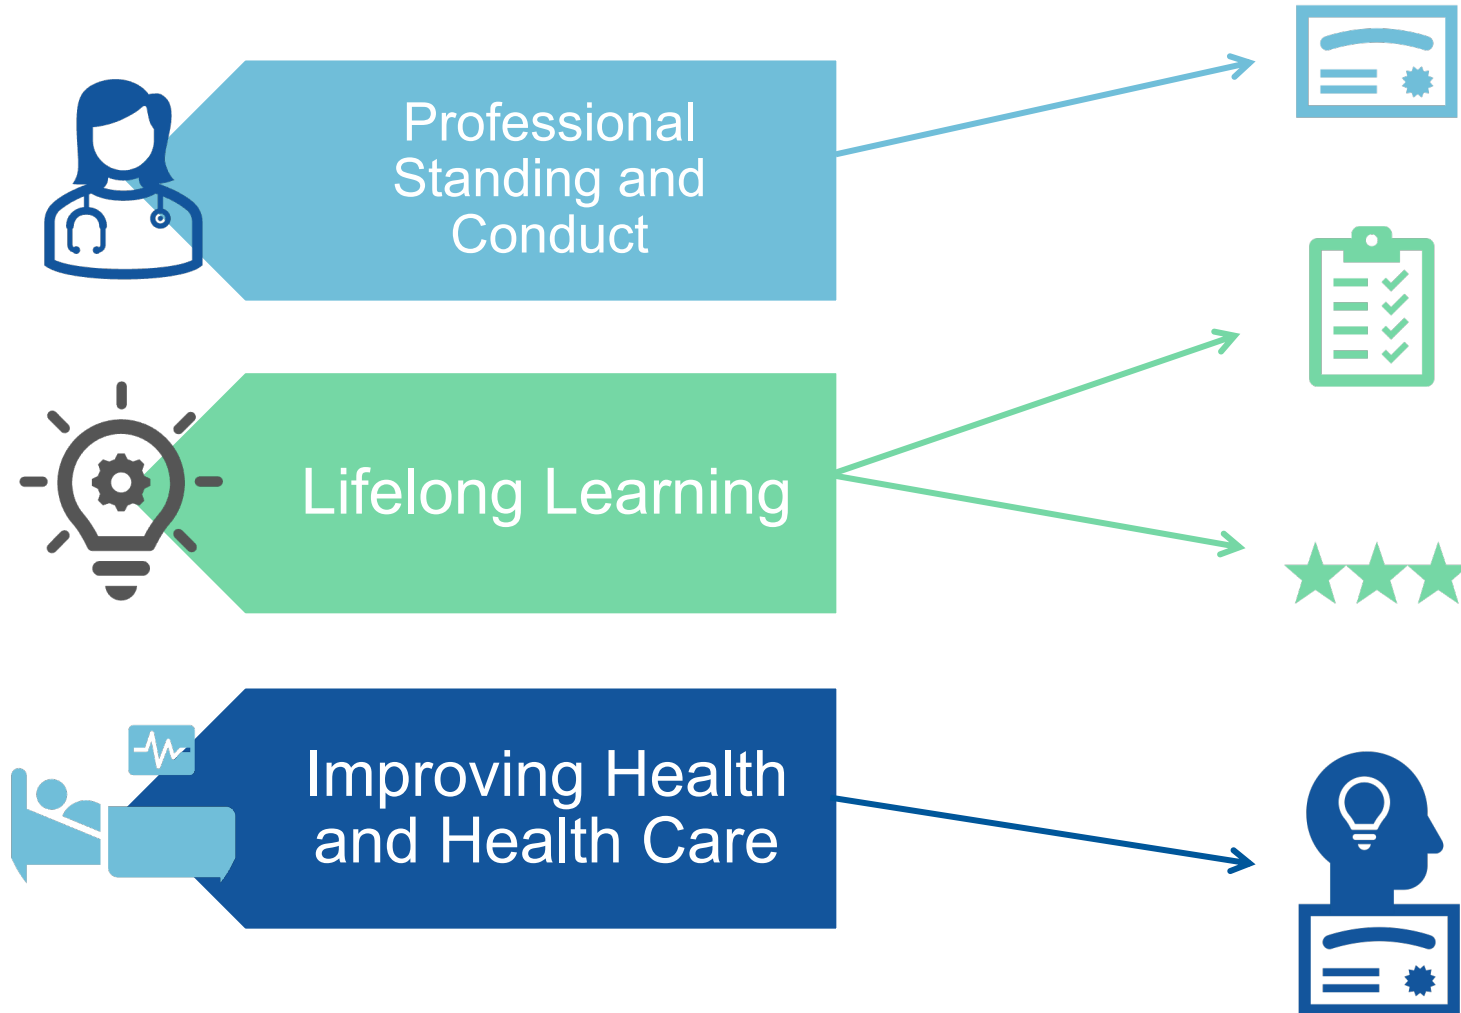

Thank You, Board-Certified Anesthesiologists

ABA's Commitment to Continuing Certification

Evolution of Our Standards

ABMS Continuing Certification Themes

ABA MOCA 10-Year Requirements

Medical License

Maintain an active, unrestricted medical licensure

MOCA Minute

Answer 120 questions each year; meet the performance standard

CME

Earn 250 Category 1 CME credits every ten years (20 Patient Safety)

Quality Improvement

Earn and attest to 50 QI points every ten years

10-to-Five-Year Certification Cycle

- ABMS determined current 10-year cycle is too long to keep up with the rate of medical practice guidelines and technical advancement
- ABA transitioning from a 10-to-five-year continuing certification cycle Jan. 1, 2024
- These standards simplify and streamline our current process while maintaining the value of our MOCA program — currently have requirements to meet every five years
- No change to continuing certification costs as a result of this transition

You will enter the new five-year certification cycle once your current certification ends

Designed based on independent Vision Commission recommendations that included physician and public feedback

Support of quality and practice innovation in continuing education

New ABMS Standards for Continuing Certification

	10-YEAR CYCLE	5-YEAR CYCLE
 Medical License	Maintain an active, unrestricted medical license annually	Maintain an active, unrestricted medical license annually
 CME Credits	Earn 250 CME credits	Earn 125 CME credits
 QI Points	Earn & attest to 50 QI points	Earn & attest to 25 QI points
 MOCA Minute	Answer 120 MOCA Minute questions annually and/or maintain a MDT p-value of ≥ 0.10	Answer 120 MOCA Minute questions annually and/or maintain a MDT p-value of ≥ 0.10

Lifelong Learning - MOCA Minute & CME

CME Credits for MOCA Minute

- Earn CME credits for completing your quarterly MOCA Minute questions (up to 10 credits per year)
 - Answer all 30 MOCA Minute questions each quarter
 - Earn 2.5 credits per quarter

Reporting CME Activities

- Attest to 250 Category 1 CME activities by Year 10 of your MOCA cycle
- 20 of your credits must be patient safety credits
- All ASA-related CME activities are reported through ASA; no action is needed on your part

Quality Improvement

- List of Quality Improvement (QI) activities generated based on physician feedback about activities they were already doing in their practice
- QI activities are subject to audit
- Attest to QI activities in ABA GO

We Heard
Your
Feedback

25 total QI Points
every five years
1 Point = 1 Hour*

*3 points for MOCA simulation

Examples of acceptable QI projects:

- Case Evaluations
- Morbidity & Mortality Conferences
- Case Discussions
- Point-of-Care Learning Projects
- Clinical Pathway Development Plans
- Institutional/Departmental Quality Improvement Projects

ABA GO Resources

Knowledge Assessment Report

- Identify areas for opportunity related to your MOCA Minute performance
 - In-depth answer explanations with links to references and critiques
 - Relevant CME activities to enhance foundational knowledge
 - Review peer-to-peer response comparison
 - Access year-over-year MOCA Minute performance
 - Analyze up to 120 of your most recently incorrectly answered questions

CME Explorer

- Powerful Online CME Catalog of Information
- Quickly and seamlessly find Category 1 CME activities that relate to knowledge gaps and count for MOCA credit in ABA GO

**Knowledge Assessment Report + CME Explorer =
Personalized CME Training**

MY PROGRESS

MOCA MINUTE® | CME | **QUALITY IMPROVEMENT**

Are you ready to answer a question?

You're not currently meeting the performance standard.
Your MDT value is 0 (needs to be ≥ 0.10). You have 74 questions left this quarter.
Answer 120 questions by 11:59 p.m. EST on Dec. 31. At the end of the year, any unanswered questions will be counted as incorrect.

[Yes >](#)

You must answer 30 questions by the end of each quarter to earn up to a total of 10 CME credits for the year. These credits are through the ASA.

Performance Standard
0 MDT You are not currently meeting the standard of ≥ 0.10
