Patient Safety CME

Revised: Oct. 2026

As part of a board-certified anesthesiologist's CME continuing certification requirements, clinicians must complete a number of patient safety credits. Every five years, 10 ABA-approved patient safety credits must be completed. For anesthesiologists on a 10-year certification cycle, they must complete a total of 20 credits by the end of year 10. Please follow the below instructions to access ABA-approved patient safety courses through each site.

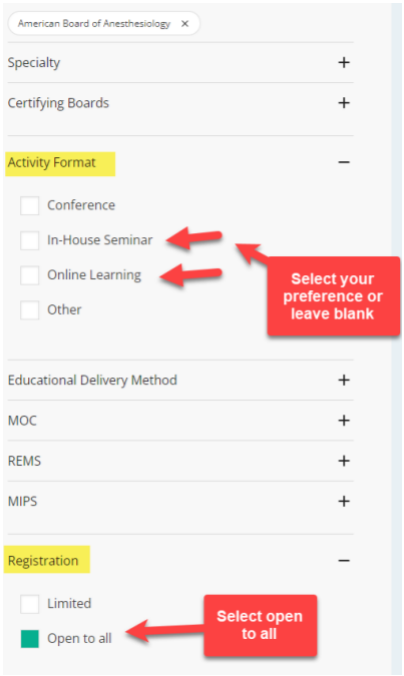

CME Passport

1. Access CME Passport via https://findit.cmepassport.org/ABA

(The link above is automatically filtered to include only ABA-approved CMEs.)

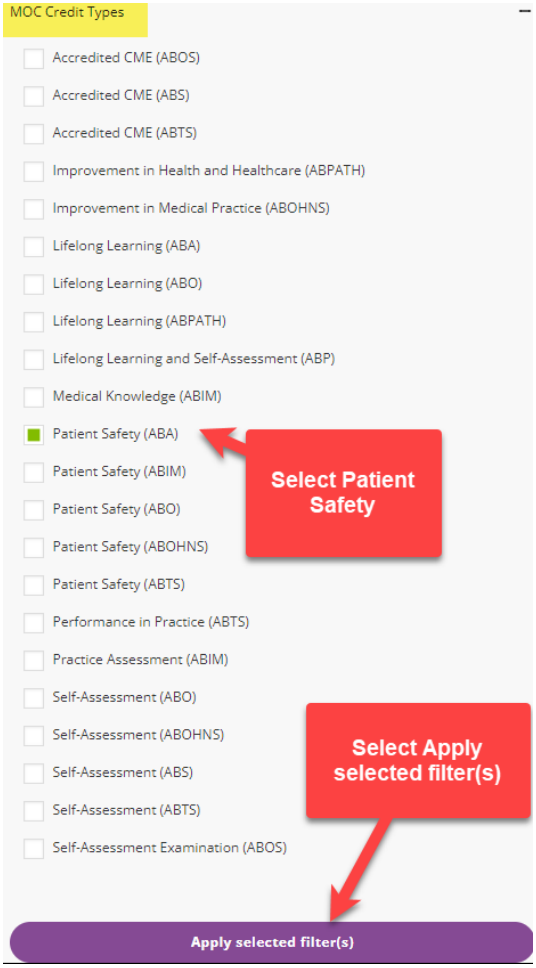

a. Apply the following filters:"In-House Seminar" or "Online Learning" under "Activity Format"

b. "Free" or "Variable" under "Fee"

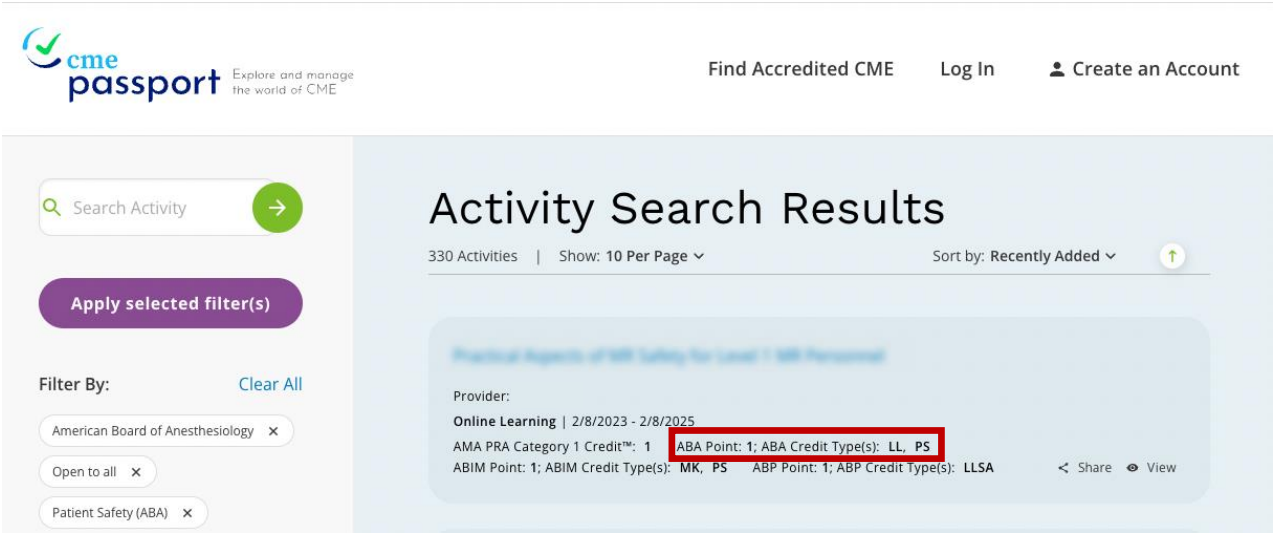

c. “Patient Safety (ABA)” under “MOC Credit Types”

Note: *Ensure you click “Apply selected filters(s)” to update the listings*

Note: *Credit types may vary. Confirm the number of ABA-approved Patient Safety credits offered when evaluating activities.*

Access a video walk-through of the process here.

Orbit CME

1. Click orbitcme.com/anesthesiology/
2. Orbit CME offers several paid subscription tiers
3. Log in to Orbit and use the article search to find curated full-text patient safety articles, sourced from PubMed Central
4. Earn 0.5 credits for each 3-step cycle completed in conjunction with an abstract or article
5. Email support@orbitcme.com for assistance
